PROFESSIONAL SUMMARY

Software Engineer building toward a Cloud Engineering specialization, with hands-on experience deploying and integrating cloud services — AWS S3 for object storage, Firebase (Auth, Firestore, Cloud Messaging) for managed backend services, and Vercel for CI/CD-driven deployments — across multiple production applications. Comfortable with Docker, Git-based workflows, and Linux environments, and experienced designing backend systems (NestJS, PostgreSQL, Redis) built for scalability and modularity. Currently expanding into AWS certification paths to formalize practical cloud experience gained through client and personal projects. Combines backend engineering depth with a genuine interest in infrastructure, automation, and distributed systems.

FEATURED PROJECTS

Urbanix — Residential Community Management SaaS

NestJS 11 Prisma PostgreSQL Redis WebSockets AWS S3 Firebase Admin

- ▶ Integrated AWS S3 for scalable document storage and Redis for caching/session support within a multi-role SaaS backend serving 25+ modules.
- ▶ Implemented real-time WebSocket channels for live notifications, alongside Firebase Admin for push messaging.

Client project — Codeliance

CDGLOBOS — Sports Club Management System

NestJS Prisma PostgreSQL Firebase Cloud Messaging PWA (next-pwa)

- ▶ Deployed a PWA-enabled Next.js frontend with offline-friendly caching and Firebase Cloud Messaging for push notifications.
- ▶ Managed environment configuration and deployment for a production NestJS/PostgreSQL backend.

Client project — Codeliance

DraAF — Medical Clinic Appointment Platform

Node.js · Express · MongoDB · Redis · BullMQ · WhatsApp Business API

- ▶ Designed an asynchronous processing pipeline with Redis and BullMQ to decouple WhatsApp notification delivery from the main API, improving reliability under load.

GESTION — Sports Psychology Appointment System

Next.js 16 · PostgreSQL · Vercel Cron

- ▶ Deployed a production scheduling application on Vercel with automated background jobs (Vercel Cron) driving appointment reminders every 15 minutes.

PROFESSIONAL EXPERIENCE

Backend Developer — Codeliance

Feb 2025 – Present

- ▶ Support the systematization and automation of administrative and documentary processes across client platforms, including deployment and environment management.

Backend Developer — TechNova Solutions

Apr 2024 – Nov 2024

- ▶ Contributed to building and deploying scalable web platforms, designing RESTful APIs with Node.js, Express, and Prisma over PostgreSQL, and participating in system deployments and architectural decisions.

EDUCATION

Computer Engineering (In Progress)

2023 – Present

Universidad Santiago de Cali, Colombia — Member, Comba Research & Development Incubator

CERTIFICATIONS

- ▶ **Networking:** Introduction to Cybersecurity — Cisco Networking Academy (Verified) · Ethical Hacker — Cisco Networking Academy (Verified)
- ▶ **Programming:** C# — Ademass Training & Development · Python — Ademass Training & Development
- ▶ **Databases:** Bases de Datos: Generalidades y Sistemas de Gestión — SENA (40h, 2025)

ACHIEVEMENTS & LEADERSHIP

- ▶ Vice President, IEEE Computer Society — Universidad Santiago de Cali (2025 – 2026)
- ▶ Active Member, ETH Cali — Web3 & blockchain hackathon participant (2026 – Present)
